EXPERIENCE

Fishbowl Support - *Sr. Technical Support Agent* | American Fork, UT
DEC 2025 - PRESENT

- Write and debug SQL queries to diagnose and resolve database and reporting issues across customer environments
- Read, troubleshoot, and repair complex JXML scripts to fix broken reports and automate report generation
- Support and troubleshoot API integrations across QuickBooks, Zoho, eBay, Amazon, and Shopify, resolving data sync and configuration issues.
- Translate complex technical concepts into clear guidance for non-technical customers, reducing repeat support tickets.

Tesla – *AI Data Analyst* | Salt Lake City, UT
JUN 25 - DEC 25

- Contributed to training pipelines for Tesla's Optimus AI system, focused on human feature recognition and behavior modeling
- Applied coding and internal tooling to support and validate model training workflows
- Collaborated with AI engineers on a cross-functional team to identify functionality gaps and implement improvements to model performance

ThermoWorks — *Technical Support* | American Fork, UT
AUG 2024 – JUN 2025

- Maintained technical expertise across 30+ hardware devices, providing troubleshooting and repair guidance
- Diagnosed device-level hardware issues over the phone and provided data-informed purchasing and repair recommendations
- Delivered consultative technical sales support balancing customer needs with product fit

EDUCATION

Western Governors University — *B.S., Software Engineering*
May 2024 – Expected June 2027
